

THE COACHING CENTER

Coach Training & Certification

Coaching Basics Training Event *October 8-10, 2012*

The Coaching Center

Are you ready to be a Christian Leadership Coach?

Coaching is a vital partnership between equals. Coaching comes from a heart of encouragement; supported by key coaching competencies; inviting discovery; and producing change and growth. For those interested in learning the art and science of coaching as well as future possible coach certification, the introductory course **Coaching Basics** is the place to start.

International Coach Federation Core Coaching Competencies presented in this training cover:

- **Setting the Foundation:** Meeting ethical guidelines and professional standards and establishing the coaching agreement
- **Co-Creating the Relationship:** Establishing trust and intimacy with the client, coaching presence
- **Communicating Effectively:** Active listening, powerful questioning and direct communication
- **Facilitating Learning and Results:** Creating awareness, designing actions, planning & goal setting and managing progress and accountability

This 22 hour training event, presented face-to-face over three days, is based on Jesus as 'The Master Coach,' has scripture at its foundation and is integrated with the International Coach Federation's (ICF) 11 Core Coaching Competencies and Code of Ethics.

This is a highly interactive learning event presented by two ICF credentialed coaches and provides a safe environment for practical, "hands on" experience in coaching another person. Class size is intentionally kept at a maximum of 20 participants to allow for one-on-one contact with the coach trainers and deeper interaction among those attending.

Fee: \$631/single occupancy; \$543/double occupancy (plus tax on meals). Fee includes two night's lodging, meals (lunch Monday through dinner Wednesday), program fee and training.
