

Second Half Ministry: Reaching the 50+ Generation

Saturday, August 11, 2012
9:00 a.m.-3:00 p.m.

The U.S. population, age 50+, is exploding at three times the national growth rate. And approximately 58% of those age 50+ have no religious affiliation.

This seminar will help lead pastors, church staff, leadership teams, small group leaders and lay people respond to the 50+ growing population and establish an effective ministry through three workshops:

Passing the Leadership Baton: Consider perceptions of leadership, differences between new members and longtime members, how to help people discover their passion, spiritual gifts and personal style for servant leadership and how to create change.

Inter-generational Ministry: Explore differences of generations, particularly between "Boomers" (born 1946-1964) and "Builders" (born 1923-1945) and learn practical ways to bring inter-generational bonding into your fellowship. Understanding generational differences and being sensitive to those differences can help you create a Psalm 145:4 culture.

Challenges and Treasures of the 50+ Generations: Learn about six common church challenges and find six hidden treasures. Using a seven step plan for finding servant leaders, learn how to develop and strengthen "Team Ministry" and gain insight on how to deal with conflict.

Seminar Facilitator:
