

Looking for a mission trip for your church? Consider bringing a work group to Green Lake!

If you or a group from your church would like to serve for a weekend or longer, Green Lake has a worthwhile ministry project for you!

Desired skills include carpentry, plumbing, masonry, electrical, painting, greenhouse/gardening, body work/automotive and appliance repair. Projects are scheduled all year with the exception of between June 15-August 15 when most of our facilities are in use. Green Lake will provide housing and cooking facilities, or meals can be purchased in our dining room.

If you spend a week, there will be an afternoon off to enjoy a variety of activities on grounds including tennis, biking, hiking, boating, golf and lake swimming. Workers receive staff discounts where applicable on activities that require a fee.
